## 1. Screenshot of the project specification:

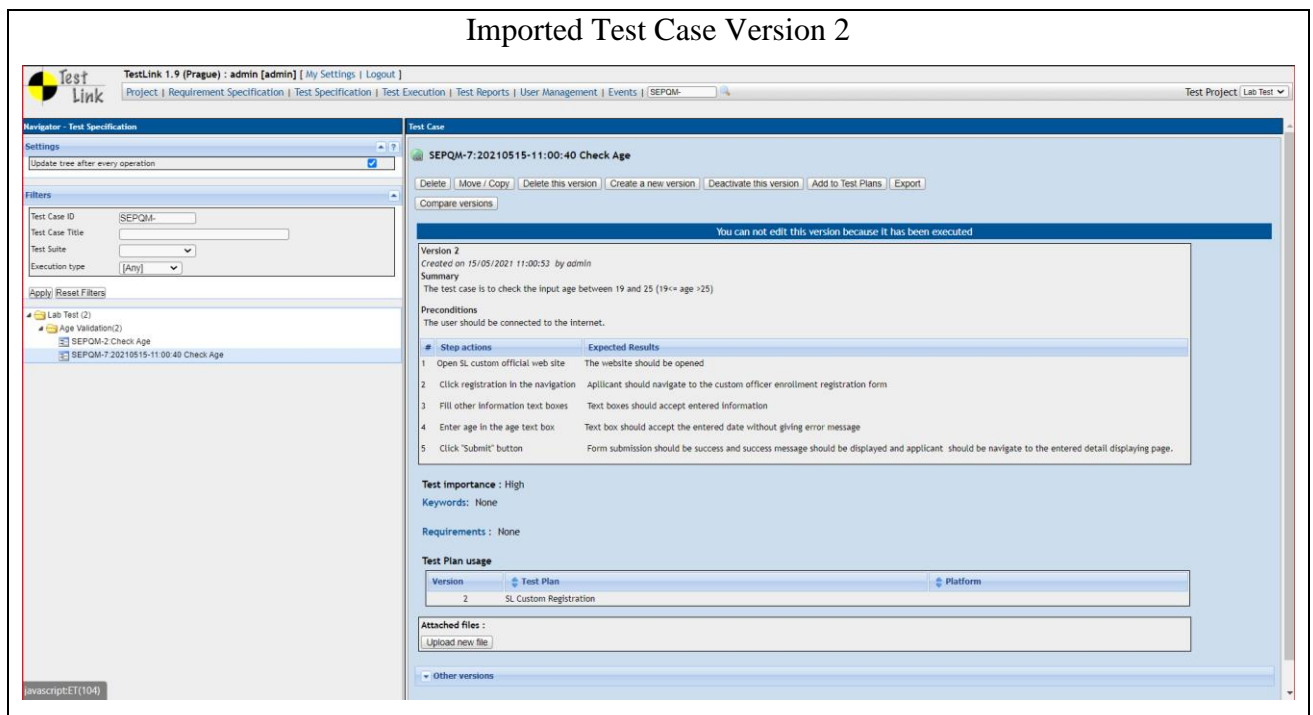

## 2. Screenshot of the exported test case.

**Note:** You are required to provide the screenshot of the **.testcase** file

## 3. Screenshot of the new test case version:

#### 4. Screenshots of the test cases that were set as “passed” and “failed”:

### Passed

The screenshot displays the TestLink web application interface. The top navigation bar includes links for Project, Requirement Specification, Test Specification, Test Execution, Test Reports, User Management, Events, and a search bar. The main content area is divided into two panels. The left panel, titled 'Test Plan : SL Custom Registration [Build : Lab Test - Sample Build]', contains a 'Settings' section with dropdowns for 'Test Plan' (SL Custom Registration) and 'Build to execute' (Lab Test - Sample Build), and a 'Filters' section with various search criteria. The right panel, titled 'Test Results on Build Lab Test - Sample Build', shows 'Test plan notes', 'Build description', and 'Test Suite : Age Validation/'. Below these, a 'Details' section indicates the test case contains test cases related to age input text field validation. The 'Execution history' table shows a single entry for 'Test Case ID SEPQM-2' with a status of 'Passed'.

Date	Tested by	Status	Test Case Version	attachments	Run mode
15/05/2021 11:01:24	admin	Passed	1		

### Failed

The screenshot displays the TestLink web application interface, similar to the one above, but showing a failed test case execution. The 'Execution history' table shows a single entry for 'Test Case ID SEPQM-7' with a status of 'Failed'.

Date	Tested by	Status	Test Case Version	attachments	Run mode
20210515-11:00:40	admin	Failed	2		

5. Screenshot of the test plan metrics report:

1.1. Age Validation

Check Age

20210515-11:00:40 Check Age

1.1. Test Suite - Age Validation

This test case contains test cases related to age input test field validation of online custom registration form

Test Case RESPONSE-2: Check Age

Author: admin

Build: N/A

The test case is to check the input age between 19 and 25 (19<= age <25)

Preconditions

The user should be connected to the internet.

Step

Step Action

Expected Results

1

Open SL custom official web site

The website should be opened

2

Click registration in the navigation

Applicant should be navigated to the custom official enrollment registration form

3

Fill other information test boxes

Test boxes should accept entered information

4

Enter age in the age test box

Test box should accept the entered age without giving error message

5

Click "Submit" button

Form submission should be successful and success message should be displayed and applicant should be navigated to the entered detail displaying page
